Big win

Valli Vikram of CS Academy's Class 12 (A level, Cambridge) was part of the five member team at INSEAD's summer entrepreneurship programme, which culminated in a business planning competition in 2020. Her team won the competition. She was invited as keynote speaker to INSEAD's summer programme in 2021 to talk about her start-up podcast, Chattick, which she co-founded with two teammates based in North America.

Smart Car Race Design Challenge

NXP India recently organised the 'Smart Car Race Design Challenge 2021' in association with TOS (Time of Sport). It is the first competition organised under NXP's platform 'Artificial Intelligence In Mobility' (AIM), launched exclusively for Indian university engineering students this January. Students from 87 universities from 24 states in India participated and the event saw 621 registrations for Design Challenge, 750+ webinar training attendees and 450+ active participation on Discord for project brainstorming.

CL Educate to set up Career Launcher

CL Educate recently announced plans to set up an EdTech subsidiary, Career Launcher (CL) to exclusively focus on digital business in the EdTech space. CL aims to focus on aptitude and jobs that form the bulk of the higher-education and youth opportunity in India for the next decade or two. For details, visit,
